

To access your member account, start on the MCC website at moorheadcountryclub.com. From here, click "Member Login" on the top right corner.

From here, you will select "Log In" (image on the left). It will bring you to the screen shown on the right. This is where you will put your email that you provided on your application. Your default password is **lovemymcc**, you can change this once you log in for the first time.

After logging in, you will see an overview of your account. We encourage you to explore all of the options on the left side. This is where you are able to make tee times, view your passes, check your statement history, set up autopay, and more! All new members will receive 2 gift cards. These are your new member incentive passes. One is for guest greens fee passes (\$250) and the other is for guest pool passes (\$30). These expire at the end of the membership year (3/31/23). Simply tell the staff when you would like to redeem these from your account. You will also be able to view your current balance and statement balance at the top of the screen. Click the green "Make a Payment" button to set up your payments, or pay your statement balance.

Your member account also gives you the ability to check your minimum spending. After opening the "Minimum Spending" page, you can see how much of your minimum you have left to spend. It will also show a summary of your most recent food and beverage purchases giving you the ability to double-check no account errors have been made, along with seeing the cost breakdowns of everything. Your statements will bill out on the first of the month, and are due at the end of the month.
